| 产地 | 佛山顺德 | 箱装数量 | 24 |

本产品引进意大利先进配方和原液,能令磨损褪色的皮面重新焕发光彩。内含柔软剂，能保持皮革柔软性，有效防止皮革硬化、爆裂等问题。

适用范围：翻绒皮、磨砂皮制成的皮鞋、皮靴、皮手袋、皮衣等皮具。

使用方法：用前请先摇匀，再将皮具表面灰尘、污渍用专用刷擦去。戴上赠送防污手套，直立罐身，在距离皮具表面20厘米处直接喷涂至皮面色泽均匀，待自然干透。（若使用本产品专用刷，将绒毛刷起，效果更好）

注意事项：由于本产品着色力极强，建议与浅色物件隔离使用，每次喷涂只能按喷头数秒钟，以防止液滴下流。（由于制造皮革的工艺各有不同，使用时请首先在皮具内面进行小面积喷涂，以测试是否混色）

警告：易燃品，切勿将瓶戳破或火源附近使用。请存放在50°C以下阴凉干燥处，勿让儿童玩耍。

颜色：请参见瓶上颜色标签。

主要成份：着色剂、增艳剂、防污剂、柔软剂、溶剂、抛射剂等。

velours and nubuk coloring agent

adopting advanced formula and primary liquid from italy.it can not only enable the worn or faded fur surfaces to restore their true shining color.contains softening agent thus keep leather softhess and resistance to hardening or bursting.

scope of application:fur goods made of velours,nubuk and muntjac fur,such as fur shoes,fur boots,

handbags,fur coats.

directions:shake well before use,remove stains and soils from surfaces of fur goods,wear the free

stainproofing gloves,hold can upright,with about 20cm from fur goods,spray directly on fur surfaces until color and even,let the surfaces dry thoronghly themselves.

(if a fur- specific brush is used,a batter effect can be obtained)

attention:because this agent has a very strong coloring ability,it is recommended to use it after having separated fur goods.for spray each time,press the nozzie only for several secends in order to avoid the formation of liquid drops.

caution:do not spray on floors,do not use near fire and flame,do not store containe where temperature exceeds 50°C,keep in dry and cool,keep out of reach of children.

corlor:refer to the color label on the container.

main elements:coloring agent,brightering agent,stain control agent,softenin agent,solvent,spraying agent
