武汉西门子授权一级代理商电源供应商

产品名称	武汉西门子授权一级代理商电源供应商
公司名称	浔之漫智控技术（上海）有限公司总部
价格	5600.00/件
规格参数	品牌:西门子 货期:现货 产地:德国
公司地址	上海市松江区石湖荡镇塔汇路755弄29号1幢一层A区213室
联系电话	15021292620 15021292620

产品详情

武汉西门子授权一级代理商电源供应商The SIDOOR NT40 switched-mode power supply unit is operated with 230 V AC (± 15 %), 50/60 Hz, to power the elevator door controllers.It is especially suitable for door systems with high door weights.On the output side, the power supply unit delivers a voltage of 36 V DC (± 3 %) SELV at a rated output power of < 100 W.In order to enable fast acceleration/deceleration of the doors by the controller, the device can briefly (< 2 s) deliver a current of 15 A (corresponds to a short-time power output of 540 W).技术规范Article number6FB1112-0AT20-3PS0SIDOOR NT40Installation type/mountingMounting typeFour 5 mm screwsSupply voltageRated value (AC)230 Vrelative symmetrical tolerance of the supply voltage15 %Line frequency● permissible range, lower limit50 Hz● permissible range, upper limit60 HzInput currentCurrent consumption for 2 s, max.3.5 ARated value at 230 V AC0.7 AOperational current of fuse protection at input, min.6 AOperational current of fuse protection at input, max.10 ATripping characteristic class of fuse protection at inputBOutput voltageRated value (DC)36 V; SELVRelative symmetrical tolerance of the output voltage3 %Output currentCurrent output (rated value)2.5 ATemporary overload current (for 2 s maximum)15 APowerActive power input, max.100 WEmitted active power, max.Emitted active power (restricted to 2 s)540 WEfficiency at 230 V AC (with 100 W emitted active power)90 %Active apparent power, max.650 V · AStandards, approvals, certificatesCE markYesEAC (formerly Gost-R)TV Inspectorate approvalChina RoHS complianceStandard for EMCEMC Directive 2004/108/EC, EN 12015, EN 12016Standard for safetyEN 61010-1 / EN 61010-2-201Ambient conditionsAmbient temperature during operation● min.-20 ° C● max.55 ° C● RemarkNo direct exposure to the sunAmbient temperature during storage/transportation● Storage, min.● Storage, max.70 ° C● Transportation, min.-40 ° C● Transportation, max.Altitude during operation relating to sea level● Installation altitude above sea level, max.2 000 mRelative humidity● No condensation, min.10 %● No condensation, max.93 %CablesCable length● Input side2 m● Output side1.5 mConnection methodDesign of electrical connection at inputSCHUKO connector DIN 49.441, CEE7/VIIDimensionsWidth270 mmHeight55 mmDepth8 0 mm品牌产品名称规格型号SIEMENS模块6ES7131-6BH01-0BA0SIEMENS接头6GK1901-1BB10-2AA0SIEMENS触摸屏6AV6648-0CC11-3AX0SIEMENS触摸屏6AV6648-0CE11-3AX0SIEMENS模块6ES7142-3BH00-0XA0SIEMENS模块6ES7288-3AE08-0AA0SIEMENS模块6ES7288-3AR04-0AA0SIEMENS模块6ES7288-5CM01-0A
