锌合金万能电子报警锁FK-8809

产品名称	锌合金万能电子报警锁FK-8809
公司名称	深圳市福康电子有限公司
价格	50.00/把
规格参数	加工定制:是 品牌:福康 型号:fk-8809
公司地址	深圳市龙华新区梅观高速公路东侧华雅工业园C2栋305房
联系电话	13823536903

产品详情

名称：挂式报警锁/电子报警锁

型号：fk-8809

适用范围：自行车，电动车，三轮车，拉闸门，摩托车及商铺与家庭等。

设计原理：采用进口的单片机芯程序控制。

科技材料：使用高科技集成电路和数码传感片。

突出特点：误报率和静态功耗在同类锁中是最低的；

设置报警锁定：

插入钥匙，并转动打开锁杆，将锁杆上带有凹型槽端朝钥匙口方向放置；发出“ 滴 ”声提示音说明该报警系统启动并工作。延时5秒后受振动发出三声警告音。5秒后再受振动，将发出报警声；若在一分中内无触发，则回到原先功能，振动后，响三声警告音。

1、挂式报警锁功能：

该系统采用压电蜂鸣片，当盗窃都撬动或砸动，敲击锁芯时，报警器会立即发出高分贝报警声，使盗窃都望子成而生畏逃之夭夭。

2、 设置机械锁定：

插入钥匙打开锁杆，反方向插入锁孔，即可发挥机械锁的功能，机械锁体采用内压式边柱+外压式弹子锁。

product name: alarm padlock

product model:fk-8809

usage scope: bicycle, storage battery car, tricycle, traversing gate etc

principle of design and special material：using mcu core procedures an the use of high-tech integrated circuit and digital sensor chip。

selling point: the false alarm rate and static power consumption is the lowest in the same lock

set the alarm function: first insert the key and rotated to open the lock then put lock rod with a concave groove towards the key port down. when you hear the sound ” di ” that means the lock is coming into alarm situation, after 5 seconds, when the lock is vibrated again, it will give an alarm and keep alarm serial movement or vibration and each alarm will last 10 ’ s .if in a minute without triggering, returned to the original function. after the vibration, you can sound the three- warning tone.。

function:the system uses a piezoelectric buzzer, when the theft are leveraging or hitting or knocking the lock, the alarm will be issued immediately high-decibel alarm to drive the thief away.

setting mechanical lock: insert the key to open the lock rod then insert the lock eye with negative direction that the mechanical lock is ok(mechanical lock body with inner pressure side column + external pressure cylinder lock.)

"厂家供应锌合金万能电子报警锁FK-8809"的颜色为黑，银，青铜色，型号是FK-8809，适用范围为自行车，电动车，三轮车，拉闸门，摩托车及商铺与家庭等，品牌是福康，材质为锌合金，加工定制是是
