

# Rimlex 600Y

产品名称	Rimlex 600Y
公司名称	上海恩莱保贸易有限公司
价格	.00/个
规格参数	
公司地址	上海市松江区金高路2388号813室
联系电话	86-021-20228098 13391171050

## 产品详情

Rimlex600Y是一种由两部分组成的环氧基树脂体系。  
它是专门为用作压缩密封件而设计的。  
应将其涂在配合部件表面的一侧，并在组装前使其固化。  
将两个组件夹紧在一起会压缩密封剂，因此会产生密封作用。

Rimlex 600Y is a two-part epoxy-based resin system. It has been specifically designed for use as a compression seal. It should be applied to one side of the mating components surface and allowed to cure prior to assembly. Clamping the two components together compresses the sealant and therefore effects a seal.

Rimlex 600Y has excellent chemical resistance to most automotive oils, fuels, anti-freeze and transmission fluids.

Specifically designed for use as a re-usable pre-applied gasket type system for sealing threaded plugs and bolts. This system is a two-part material that cures to give a more densely crosslinked material than 620B and may be more suitable for high-pressure applications, or a tough adhesive up to 150oc
