瑞士EMS(PA12 TR90)

瑞士EMS(PA12 TR90)记忆眼镜专用原材料

Huayun Plastics company PA12 SWISS EMS NYLON PA material is tough horn-shaped translucent or milky white crystalline resin. As Engineering Plastics, the molecular weight of PA is generally 15-30,000 PA with high mechanical strength, high softening point and heat resistance, low Coefficient of friction, wear resistance, self-lubrication, shock absorption and silencing, oil resistance, weak acid resistance, Alkali resistance and general solvents, good electrical insulation, self-extinguishing, non-toxic, odorless, good weather resistance, poor dyeing. Fiber reinforcement can reduce the water absorption of resin and make it work under high temperature and humidity. PA and glass fiber affinity is very good. PA mainly used in automotive industry, electrical and electronic industry, transportation industry, machinery manufacturing industry, wire and cable communication industry, Film and daily necessities.

Manufacture various bearings, gears, pinions, cams, bevel gears, oil pipes, oil accumulators, protective enclosures, support frames, wheel covers, guide plates, fans, air filter housings, radiator water chambers, brake pipes, engine enclosures, door handles. Bearing, gear, pulley pump impeller, blade, high pressure seal ring, gasket, valve seat, bushing, oil pipeline, oil reservoir, rope, transmission belt, grinding wheel adhesive, battery box, electrical coil, cable connector various rollers, pulley, pump impeller, Fan Blade, worm wheel, propeller, screw, nut, oil seal gasket, oil resistant container, Shell, hose, cable sheath, cutting machine, pulley sleeve, bull head Planer, electromagnetic distribution valve seat, cooling equipment, gasket, bearing cage, all kinds of oil pipeline, piston, rope, transmission belt on automobile and tractor, textile machinery industrial equipment zero fog material, as well as daily necessities and packaging film. There are packaging tape, food film cooked high-temperature film and cool drink low-temperature film production is also considerable.
