国内安卓系统10.2寸三防平板电脑_10.2寸三防平板电脑报价价格

YW-1000A，10.2英寸强固型平板电脑，10.2寸加强型工业平板电脑： Product Overview

The YW-1000 Rugged Tablet Computer series has two models (YW-1000A and YW-1000D). The major difference between these two models is the processor. The YW-1000A features the Intel® Atom™ N270 1.6GHz processor and the YW-1000D features Intel Core Duo U2500 1.2GHz/ Celeron M 423 1.0GHz ULV processors. Both models are equipped with one 200-pin DDR II SODIMM socket (up to 2GB) and the system memory is optional based on your needs. In addition, the YW-1000A/YW-1000D offers flexible I/O and storages such as two USB 2.0, one Mini USB, one RS-232, PCMCIA, two internal Mini Card, and one CompactFlash Slot for versatile expansions.

The YW-1000A/YW-1000D is sealed to IP-54 specification. It is built from the ground up to withstand water, dust, vibration and drops, as well as the harsh environments it is utilized in. This model deploys 10.2: WSVGA (1024 x 600) 16:9 TFT LCD display with LED backlight that can be viewed in wide angles and are sunlight readable with a patented AOT (Advanced Optibond Technology) touch screen. This advanced technology is for display impact protection that is often required by rugged applications In addition, built-in handwriting recognition and numeric keypad and programmable function keys on

the front panel are all user friendly features of the YW-1000A/YW-1000D. Another unique design is the Finger Print Reader, which is ideal for personal security.

In Addition to the optional docking station and vehicle chargers can keep the system up and running for multiple operating shifts. Smart 9 cell Lithium-Ion high capacity battery life can provide 5~7 hours working time that can meet the demands of daily work. For network communication, the YW-1000A/YW-1000D uses one 10/100/1000Base-TX Ethernet and a Wireless LAN IEEE 802.11 b/g plus Bluetooth 2.0 Class 1 module to provide faster and convenient connections.

The YW-1000A/YW-1000D offers high performance with low power consumption that is perfect for applications in the Emergency Medical Service, Public Safety, Transportation, Marine, and Aviation to name a few.
