HAOUGER JH5061 黑色PE导电袋

产品名称	HAOUGER JH5061 黑色PE导电袋
公司名称	江苏飞领新材料有限公司
价格	.20/袋
规格参数	品牌:HAOUGER 型号:JH5061 产地:中国
公司地址	盐城市响水县经济开发区城东干道东侧 响陈路北侧
联系电话	18964669969

产品详情

JH5061??PE??????PE??

>>Conductive PE bag?Black permanentESD PE bag?

Conductive PE bag is made of conductive PE roll film and cylinder film by heat sealing, cutting and ironing. Conductive bag has good mechanical properties, and the accumulated electric charge on the product can be well released through the bag body, which can protect the electronic sensitive component from electromagnetic wave and static electricity. In addition, the superior light-shielding property can avoid the damage of light-sensitive components and products in the process of transportation and storage.

| ????????????????????????????

I According to the shape of the bag, it can be divided into flat bag, organ bag (edge bag), round bottom bag, three-dimensional bag (special-shaped bag) and so on.

l ????????????????????????????????????
I According to the form of bag opening, it can be divided into flat pockets, self-sealing bag with concave and convex strips, self-adhesive envelope pockets, self-adhesive magic sticker pockets and so on.
?????????????????????????????????????
I Depending on the application of the bag, it can be called a light-shielding bag, a selenium drum bag, a permanent anti-static bag, a black plastic bag, a container bag inner bag, an electronic detonator bag, an explosion-proof bag, and the like.
???????The main technical parameters are as follows: ?
?????Surface resistance value?103~1011?
?????????????????
Customizable conductive bags of any size, no matter how large or small
??????Electrostatic discharge time?
????????????guanwang??
