HAOUGER JH5064 导电条防静电带导电带导电PE带黑色导电带

产品名称	HAOUGER JH5064 导电条 防静电带 导电带 导电PE带 黑色导电带
公司名称	江苏飞领新材料有限公司
价格	.10/米
规格参数	品牌:HAOUGER 型号:JH5064 产地:中国
公司地址	盐城市响水县经济开发区城东干道东侧 响陈路北侧
联系电话	18964669969

产品详情

JH5064???>>Conductive strip

TheConductive strips are also called anti-static strips, conductive strips, conductive PE strips and black conductive strips, which are made of black conductive polyethylene roll films and mainly used to purify the bottom of non-woven cloth shoe covers in dust-free rooms of workshops. When used, the conductive strips are plugged into user socks, the conductive strips contact the skin, and the skin of the user electrostatically enters the ground, thereby achieving the anti-static effect. In addition, the conductive strip is also used for the insole bottom of the anti-static dust-free work shoes, connecting the insole pad and the anti-static sole, so as to achieve the best static discharge effect of the work shoes. ????????

?The main technical parameters are as follows:

?????Surface resistance value:?103~106?

???Width?5~35mm

???Length?600~2000mm

???Thickness?50~100?m

??????Electrostatic discharge time?
