DWQ-03全黑橡胶止步定位器

产品名称	DWQ-03全黑橡胶止步定位器
公司名称	佛山市靓艺交通器材有限公司
价格	16.00/个
规格参数	类型:定位器 材质:优质橡胶 闸杆长度:000（m）
公司地址	佛山市南海区小塘塘南路10号之二
联系电话	0757-86633869

产品详情

类型	定位器	材质	优质橡胶
闸杆长度	000（m）	闸杆升降时长	000（s）
电源电压	000（V）	规格	500*140*100
品牌	靓艺	型号	DWQ-03

定位器又称车轮挡、倒车垫、阻位器、挡车器尺寸：500*140*100 重量：2.5kg材料：由高强度橡胶制成.外贴反光片。用途：停车位加装档轮杆，可以避免倒车不当造成的建筑物损伤，以及汽车的损伤。即使车辆不小心碰撞上，也能将建筑物和汽车的损伤减至最小。安装方法：安装时用拉爆螺丝固定在每个车位上。还必须用弹线，用道钉或螺栓坚固一位，确保各车位车轮定位器在同一直线上。如停车位为草地时，应先做地基，才能固定挡车座。

foshan beautiful art traffic equipment co., ltd

our research, design, manufacture and sales: road traffic facilities, parking facilities and road construction safety equipment, and undertake roads and parking facility engineering, is a comprehensive integration enterprise marketing work. the company has 13,000 ㎡ traffic facility production plant and warehouse. our company consists of blow molding workshop, roll-plastic workshop, rubber workshop, signage production workshops and metal processing workshop. blow molding workshop own the whole china"s largest and most advanced one blow molding machines, blow molding product diameter to 2 meters above, roll-plastic machine products diameter can reach 5 meters above, the main production reflective road cones and water horse plastic traffic products. customers are welcome to visit the factory also friends make the all large hollow blow molding, roll-plastic products.

locator say again wheel gear, reversing mat, resistance a device, buffer stops for

size: 500 * 140 * 100 weight:2.5 kg

material: by high intensity rubber manufactured. attached with reflective slice.

uses: adding gear wheel lever parking space, can avoid backing situations caused by the improper damage and building of car damage. even if vehicle carelessly collision, can also will buildings and minimizing damage to the car.

install method: when installation used pull blasting screws in each parking spaces. by using the line, must also be fortified with bolts or a spike, to ensure that the parking wheel locator in a straight line. like parking space for grass, should do first foundation, to fixed under seats.
