产品详情

850/1300多模可调光衰减器

Description: VOA is a VOA product family using the MEMS chip with a movable mirror on the silicon. The VOA chips are best value of miniature VOA product that is competitive with other VOA technologies.

FEATURES: Mini-type design *Hermetically sealed *Low insertion *Loss (IL) *Low polarization dependent loss (PDL) *Fast response time *High shock & vibration *Low power consumption *Telecordia 1206 & 1221 compliant
