# 产品详情

| | | | |
|---|---|---|---|
| 品牌 | shancheng | 型号 | G1.6 |
| 类型 | 家用煤气表 | 公称流量 | 1.6（m3/h） |
| 最大流量 | 2.5（m3/h） | 最小流量 | 0.016（m3/h） |
| 接头中心距 | 130（mm） | | |

**overview**

domestic diaphragm gas meter g1.6 /g2.5 /g4 is designed to meet the client ’ s highest demand with regarding to accuracy measurement and safety. it is widely used to measure the volume of natural gas, lpg and coal gas. it meets oiml r31:1995.

**features**

●compact size, light weight

●sustained accuracy and smooth operation

●high metrological performance

●low pressure loss

**functions**

●moving parts in self-lubricating materials.

- body case: sheet steel, two-pipe connection type, digital index.
- synthetic diaphragms.
- grid and distributing valve in thermosetting resin.
- secured and sealed against illegal access.
- equipped with a device to prevent the reverse flow of gas through gas through the meter.
- magnet transmission keeps excellent sealing.
- the turning valve motion design ensures long term stability, and minimal wear.
- high quality internal plastic and stainless metal components, internal and external protection with powder painting guarantees the meter ’ s long-term service.

**standard**

gb/t 6968-1997 diaphragm gas meters
