

# UNION DZ2高倍数高分辨率连续变倍显微镜

产品名称	UNION DZ2高倍数高分辨率连续变倍显微镜
公司名称	上海达拉斯光电科技有限公司
价格	.00/个
规格参数	类型:光学显微镜 品牌:UNION 型号:DZ2
公司地址	中国 上海 上海市闸北区 天目中路240号
联系电话	86-021-63536738

## 产品详情

类型	光学显微镜	品牌	UNION
型号	DZ2	仪器放大倍数	250X~2500X
适用范围	生产 科研		

zoom ratio of 10 : stepless magnification change from 350x to 3500x without changing lens (with objective zc70). it is possible to reach the observation position quickly at low magnification and magnify the image then and there to the maximum. dz2 can be used with various types of illuminations. it has a wide application. the resolution is so high that a very clear picture is available even when the microscope is used with a large monitor.

specifications Objectives	zc5 0.5x - 5x w.d. 45 mm (total magnification 25x - 250x) zc15 1.5x - 15x w.d. 46.2mm (total magnification 75x - 750x) zc50 5x - 50x w.d. 14 mm (total magnification 250-2500x) zc70 7x - 70x w.d. 7.1mm (total magnification 350x - 3500x)
zoom ratio	10
image observation	by tv monitor (image input by ccd video camera of c mount type)
illumination	coaxial reflecting illuminator (fibre optics)
