

MG Chemicals 8462 - Silicone Grease导电油脂

产品名称	MG Chemicals 8462 - Silicone Grease导电油脂
公司名称	上海恩莱保贸易有限公司
价格	.00/个
规格参数	
公司地址	上海市松江区金高路2388号813室
联系电话	86-021-20228098 13391171050

产品详情

8462 - Silicone Grease导电硅脂

8462 is a [dielectric silicone grease](#). It seals, waterproofs, lubricates and insulates indoor and outdoor electrical connections with a layer of non-hardening silicone compound. It is electrically insulating but allows current to flow through metal contacts, providing environmental protection without inhibiting connectivity or causing short circuits. It is also good for lubricating and sealing rubber and plastic parts.

Silicone grease is commonly used on outdoor lighting, scoreboards, traffic lights, high voltage poles, transformers, disconnects, switching mechanisms, electrical contacts, spark plugs, battery terminals, fasteners, seals, gaskets, plastic insulators, and O-rings. It is useful in marine environments and harsh weather conditions.
