

Chemtronics CW2205

产品名称	Chemtronics CW2205
公司名称	上海恩莱保贸易有限公司
价格	.00/个
规格参数	
公司地址	上海市松江区金高路2388号813室
联系电话	86-021-20228098 13391171050

产品详情

The Chemtronics CW2205 is a Conductive Paint designed to create instant highly conductive silver traces that dry in minutes and offer excellent adhesion to most electronic materials, This silver paint is ideal to be used for electronics applications such as circuit trace repair, EMI shielding, and more. It is a great solution for Engineers, repair technicians, and manufacturers to speed up project completion and to cut rework time. The CircuitWorks Conductive Paint comes with several application tools for easy PCB rework and repair. It includes 2 small brushes, 2 small lint-free swabs, and 1 plastic pick for fine trace repair.

Chemtronics CW2205 Features:

Solderable at low temperatures

Superior electrical conductivity

Single component system

Highly adherent to circuit boards

Chemtronics CW2205 Specifications:

Material: Silver Filled Polymer

Tack-Free Time: 3 to 5 minutes

Operating Temperature: Max 400 ° F (205 ° C)

Solder Wetting: 2 to 3 seconds
