产品详情

3M 8673 tape is a transparent, glossy polyurethane tape with acrylic adhesive. Extremely UV stable. Delivers excellent resistance to weather, environmental damage, and corrosive elements. Gives surfaces cratch, erosion, puncture, and impact protection.

Features

Made from polyurethane elastomer that resists punctures, tearing, erosion, and abrasion

Constructed with long-aging, solvent-resistant, pressure-sensitive acrylic adhesive that is protected with an easy-release polyethylene liner

Formulated for long-term resistance to UV light

Simple method of protecting surfaces from corrosion and other minor impact damage

Installs quickly and easily with minimal tools

Can be painted on or applied over painted surfaces

Supplied with a top polyester liner used as an aid for wide web applications

Top liner is also removed after installation
