### 产品详情

Bonds metal to metal and precured fiber-reinforced epoxy composite laminates

We designed 3M Scotch-Weld Epoxy Adhesive EC-3448 to be a low flow compound that is ideal for vertical or overhead surfaces with no run-off. It's a paste version of the 3M Scotch-Weld Structural Adhesive Film AF 163-2 Film. With its soft-paste viscosity it is easy to tool and form for a variety of applications. Workers will appreciate this one-part adhesive for its easy-to-dispense formula.
