

斜方棱镜，高精度，竞争力价格, 超10年经验专业厂家

产品名称	斜方棱镜，高精度，竞争力价格, 超10年经验专业厂家
公司名称	福州光骅达光电有限公司
价格	58.00/个
规格参数	尺寸:25mm 通光孔径:>90%
公司地址	福州金山开发区A区62栋
联系电话	13107695427

产品详情

斜方棱镜

福州光骅达可提供镀膜和不镀膜两种斜方棱镜（菱形棱镜）。

产品特点：

光束横向位移

在不反转图像的情况下移动光轴

输入和输出光束平行度在 ± 30 弧秒

也可使用我司的光束位移道威棱镜

作为专业的斜方（菱形）棱镜供应商，福州光骅达Photonchina长久以来一直致力于为国内外客户提供设计和制造服务。从毛坯切割到生产检测的最后阶段，我们保证所有产品都经过严格的质量控制，从而在客户的实际使用中表现优异。

Rhomboid Prism

Rhomboid prisms are used to shift an incident beam without angular deviation or orientation change. In imaging applications, they will displace the optical centerline by the prism length “ L ” without inverting the image.

These prisms are available both uncoated and coated.

As top-ranked supplier of rhomboid prisms, Photonchina has been satisfying customers worldwide by offering design and manufacturing service for more than decades. From first cut to final stage of production, we ensure that all products have been under strict quality control and thus conduct excellent performance in customer ' s real use.
