公司简介

泰兴市宇光仪器有限公司是从事光学仪器研发制造销售的综合性企业，特别是在印前制版设备的研究方面具有较长的历史和丰富的经验，数十名科研技术骨干和先进的生产检测设备保证了产品的质量所在同类产品领先地位。

为了改变国内高当印前设备一直依赖昂贵进口设备的现状，公司近年开发的gdk-气动式830，1030光电定位ps版打孔机，sbk—a双回路抽气式全封闭二次曝光晒版机和xty—880型全自动冲版显影机等一系列印前设备，全面解决了国内同类产品中存在的如抽气难，抽气不彻底，回气，曝光不均匀等老大难问题，深受市场的好评和热捧。

我公司的宗旨是：“贵在专业，精于创新；始于客户需求，终于客户满意”我们将不断推出新产品以适应市场的需求。我们真诚期待和新老客户携手并进，合作双赢，共创辉煌明天！

taixing yuguang instrument co. , ltd is a specialized manufacturer of pre-printing plate-making equipments.its products include ps plate drying machine , ps developing machine , ps plate baking machine , silk-screen plate drying machine , double-function copying machine , reversible plate drying machine solid resin plate making machine flexible plate making machine , mini paper cutter , water mangle , etc.,all together ten categories with over 60 varieties , which makes the factory a specialized manufacturer that integrates research , production , marketing and service and whose products are welcomed by customers in both domestic and foreign market.

yuguang instrument co. , ltd has over ten years ' history of manufacturing plate making equipments.therefore , in the field of plate making , the factory has accumulated rich manufacturing experiences and various advanced testing and processing appliances.with it ' s a dozen researching , productive and technical engineers , the factory has acquired strong power in product development and production. especially in recent years , the factory has developed sbk-d press -roll air-driving totally-enclosed secondary -exposure plate drying machine , sbk-b double return air-driving totally-enclosed secondary-exposure plate drying machine , xty-800 full automatic developing machine , and other products.in developing those products , the factory has assimilated advanced air-drawing technologies from germany,tianma , taiwan , wangchang , sanying , and daxiang and taken in consideration the using conditions of domestic products of the same kind , thus thoroughly adjusting the unsuitable productive procedures of old products in terms of electric appliances , function , structure and appearance , truly solving the major problems of difficult air drawing , incomplete air drawing , air return , etc.those new products have changed the history of china ' s dependence on import of high-class pre-printing equipments , filled in a blank of perfect air drawing that

hasn't been achieved by domestic products, and are able to replace imported equipments. this will help you to put your high-class printing equipment to an even ideal option for the operation of high-class printing.

Guang instrument co., ltd, establishing quality with service, existing by quality, and based on honesty, will continue to put forth new high-class printing equipments. we'll present our old and new friends in the printing industry with top-grade products and services, and sincerely co-work with our friends to create a bright future.
