产品详情

Dalian Tianshan has been manufacturing superior Lyophilized Royal Jelly Powder for more than 25years. Our Royal Jelly Powder is exported to many countries with high reputation.

Lyophilizing, also called as Freeze-Drying is the most optimal dehydration process to remove the water of Fresh Royal Jelly by sublimation as no heat or chemicals are involved to decrease the quality.

The full advantage of Lyophilizing method:

- (1)-Keep original nutritional profile including the biological active components;
- (2)-Maintain natural flavor and aroma;
- (3)-Preserve the actual color.

Organic royal jelly powder is available.
