## 产品详情

材质 ABS 品牌 autosailin  
型号 C100  
led rgb控制器(led rgb controller)

autosailinas-rgb-c100 series

功能特点 (features):

as-rgb-c680系列多功能led rgb 控制器是一款可编程-储存-播放的功能和组合能力很强的led控制器，用于控制四线三回路（共阳极）led灯的rgb颜色变化；rgb各256级灰度，20种功能模式选择,轻触式功能按钮,配有ir无线遥控器,按控制器按键或者用遥控器都可以控制led灯的功能变化,使用更方便实用。

led控制器单台功率不够用时，可增加赛菱as-rgb-p860系列功率扩展器，实现功率的无限放大。

具有“编程-储存-播放”功能

as-rgb-c100 series rgb controller is a program-save-play version with a powerful combination that can control led lighting color changing with 4-wire-3-channel cables (common anode), built in 20 running modes with panel key or ir remote control operation, it is very convenient to set the led lighting color and save the running mode and other running parameters via panel key or ir remote controller.

if one piece of as-rgb-c100 series controller doesn't meet with the capacity of led lighting power, power repeater (autosailinas-rgb-p860 series) should be used to expand the power up to any capacity.

heat advantages: program-save-play function
