

汽车免维护电池 MANHONG

产品名称	汽车免维护电池 MANHONG
公司名称	江门市新会区会城银辉电器厂
价格	.00/个
规格参数	品牌:MANHONG 型号:N50 化学类型:铅酸蓄电池
公司地址	江门市新会区会城群胜旧路工业区（小学旧址）
联系电话	86 0750 6316968 13702597784

产品详情

品牌	MAN HONG	型号	N50
化学类型	铅酸蓄电池	额定容量	50
用途	汽车电池		

本公司采用独特的铅膏配方及电阻较低的电解质，使电池具备更高的引擎启动性能，采用银合金技术，独特的板栅设计，使电池具有更好的低温启动性能、具良好的即用性能；最优化的设计，使电池的能力比更高，而且寿命长，真正能满足驻车启动和现代车辆电子设备的需要。

具有更强的抗腐蚀性，更大的放电效果。、

极低的电池内阻，超强的起动电流

不受温度控制的电解质

提高抗腐蚀性能，减缓蓄电池的“老化”

极低的自放电率，充电后储存时间长，

安装方便，使用者没有与酸液接触的机会

正常充电不产生温度，不耗水，氢氧重新复合

无液态或气态酸产生，不污染环境。

our company battery adopted special formula of lead ointment and electrolyte, which has low inner resistance, and

this increase the function of engine start up. with the use of silver alloy technology, special contrivance of the material the battery has a better function of engine start up in low degree temperature condition, better capacity forthwith, best designing, more energy and longevity, all of which satisfy the demand of start up and modern electronic equipment.

the advantages:

stronger resistance to corrode, more effective discharging

extremely low inner resistance, supper discharging

electrolyte can ' t be effected by temperature

stronger resistance to corrode, extend the life of batteries

extremely low rate of self-discharging long storing time after electrification

convenient fixing, users have no chance to touch acid liquid

no temperature rising during regular charging, no water consuming, recombination of oxygen and hydrogen

no liquid or gaseous acid comes into being, no pollution to environment.
