

旋压皮带轮 BRISK 钢板

产品名称	旋压皮带轮 BRISK 钢板
公司名称	浙江申隆汽车零部件有限公司
价格	.00/个
规格参数	品牌:BRISK 型号:SL-BK033 材质:钢板
公司地址	诸暨市暨阳街道江龙工业园区
联系电话	057587303193 15068986688

产品详情

品牌	BRISK	型号	SL-BK033
材质	钢板	皮带轮类型	旋压
标准类型	国标	适用机床	车床
是否库存	否	是否批发	否

pulleys are spinning formed by sheet metal that is the most advanced structure. due to uniformity and nice balance, it is unnecessary to deal with balance. besides, because the material line will not be cut off (non-cutting processing), the surface becomes hardened and the density increased, to improve the surface of wheel ' s strength and hardness. the high dimensional accuracy let the slip of belts and wheels become small, and the use of belts become lasting. compared with spinning pulley and cast iron pulley, there are many advantages like light structure, saving materials, inexpensive, etc, which is a new nice energy-saving product.
