ASAHI Polyslider Thrust

Standard Polyslider Thrust Washer

STANDARD POLYSLIDER THRUST WASHER

Standard thrust washers are high-precision washers inched out from POLYSLIDER TAPE. The advantages of these washers are:

- (1) Oil-free
 - (2) Low noise due to friction and impact
- They are suited as parts for various parts of small size machines. Note: When mounting POLYSLIDER TAPE to slideways, roughen the surface with emery cloth before adhering.
