

神农草炭 15 (kg) 编织袋

产品名称	神农草炭 15 (kg) 编织袋
公司名称	吉林神农实业有限公司
价格	35.00/袋
规格参数	重量:15 (kg) PH值:5.5-6.5 包装:编织袋
公司地址	解放中路119号
联系电话	13019150446

产品详情

重量	15 (kg)	PH值	5.5-6.5
包装	编织袋	适用范围	花卉苗木、蔬菜瓜果、草坪、土壤改良

神农泥炭 (sn peat moss)

采自中国长白山国家中心泥炭地矿带，独特的高山地貌和高寒气候，数万年的地质变化，使高、中、低位沼泽中的水苔类低等植物枯死衰亡，在水淹厌氧的情况下，植物残体未被完全分解，沉积演变而生成的一种有机质、腐殖酸、黄腐酸丰富，ph、ec值可靠稳定，适合园艺植物生长的天然有机栽培基质。

神农企业集团是国际化、标准化、系列化、规模化泥炭无土栽培基质大型专业生产商，所生产的神农泥炭被国际上誉为最天然、最有机、最优良的栽培基质和土壤改良剂，“有机软黄金”。

泥炭类型：苔草型优质天然泥炭

生物特性：无污染，无农药残留、无病原菌，粗灰分、杂质含量低，为长白山纯天然产品；

理化特性：有机质、腐殖酸、黄腐酸含量高，ph值、ec值、纤维度、含水量、孔隙度等理化指标稳定可靠；质地轻柔，富有弹性，不板结，持水性、透气性强，缓释性良好；

神农泥炭 (sn peat moss) 理化分析

组份 (理化指标)	含量	主要元素	含量
有机质平均 %	70	全氮 (n) %	2.26
ph值	5.5-6.5	全磷 (p2o5) %	0.25
腐殖酸平均 %	29	全钾 (k) %	0.3
黄腐酸平均 %	25	钙 (ca) ppm	3300-30000
纤维度平均 %	60	镁 (mg) ppm	3000-15000
分解度平均 %	25	铁 (fe) ppm	1500-3300
电导率ec值	0.3abt	铜 (cu) ppm	18-68
阳离子交换量 (cec)	150mg/100g	锌 (zn) ppm	21-360
孔隙度平均 %	25-60	锰 (mn) ppm	25-600
含水量 %	20-50	硼 (b) ppm	25-30
粗灰份 %	15	钼 (mo) ppm	3

适应范围：适用于各种花卉苗木、蔬菜瓜果、烟草、棉花、中草药材和草坪绿地以及劣质土壤改良。

产品品种：主要系列产品有：花卉专用泥炭、草坪专用泥炭、改土专用泥炭、高尔夫球场养护泥炭、蔬菜瓜果育苗基质、容器苗木专用基质、路基喷播基质、屋顶花园专用基质，花卉营养基质(多浆植物专用、观叶植物专用、木本花卉专用、球根花卉专用、宿根花卉专用、兰花专用、草本花卉专用。

神农泥炭级别：

出口特级泥炭

产品全部出口，符合国际标准，可满足国际客户中、高档花卉种植栽培需要。

国内特级泥炭

产品全部供求国内花卉园艺市场，可满足国内中、高档花卉种植栽培需要。

国内一级泥炭

产品全部供求国内市场，国内花卉园艺通用产品，产品企业全部普通简易编织袋包装。

神农泥炭生产过程：

- 1、采收：机械化开采。切割法和吸收法。切割法是将泥炭地表面进行块状成条状，切割后堆放收集。吸收法是将泥炭地表层打碎后通过真空方法直接收集。
- 2、分类：将冬天和初春开采出来的泥炭，按不同层面，不同种类，不同用途，不同纤维规格，分别进行集中整理和堆放，进行表面消毒和杂质处理，确保泥炭成品质量要求。
- 3、混合：根据园艺植物的不同品种和特点，选择相应泥炭，按预定配方，合理配比营养元素和湿润剂，以及其他相关基质。
- 4、检测：质量管理体系严格，实时现场监控，确保每个批次产品质量，每批产品小样封存一年，神农泥炭质量检测中心将无偿为客户测土配方，提供产品种植全程的检测服务。

5、包装：压缩包装：300l；非压缩包装：50l；60l。

6、运输：汽车整车运输：3000包/车（50l国内一级）；2500包/车（60l，国内特级、出口特级、有机育苗基质等）；500包/车（300l压缩包装、）；

集装箱运输：2000包/40英尺高柜（50l国内一级）；1666包/40英尺高柜（60l，国内特级、出口特级、有机育苗基质等）；333包/车（300l压缩包装）；

应用案例：香港迪斯尼乐园、沈阳五里河体育场、广州陈村花卉世界主会场大观园、维生种苗公司、台湾农友种苗公司、森禾种苗股份公司、昆明世界园艺博览会、沈阳世界园艺博览会、北京万柳高尔夫体育场、京沈高速公路护坡、京沪高速公路护坡、新疆棉花蔬菜瓜果育苗、山东寿光蔬菜育苗、内蒙沙漠植树造林、天津滨海新区盐碱地改造等。

中国泥炭第一大品牌企业，信用企业。神农泥炭在中国26个省、市、自治区广泛应用，倍受好评，产品远销日本、韩国、马来西亚、新加坡以及欧美国家。

售后服务：神农泥炭售后服务体系完善，可根据不同客户需要，提供专业的神农泥炭施土配肥方案，指导客户在园艺上正常使用，为客户提供参考借鉴，同时无偿为客户提供国内外泥炭无土栽培的各类技术信息服务。

sunnor brand peat moss

peat moss is natural organic growing media and natural conditioner(amendment) due to its unique

characteristic such as rich organic matter ,good water retention ,high air capacity , good drainage,light

weight and contains humic acid,fulvic acid,n,p and k by nature .it derived from uncomplete decomposed plant

decay from china famous peatland -hometown of china peat land which has unique geological position-

mountain and cold climate,peat moss is the best growing media for horticulture plant and crops .

sunnor group co.,ltd is a large professional peat moss soilless culture manufacturer with international

standard and series.sunnor peat moss is called organic soft gold.

type of peat moss:carex type high – quality natural peat moss

biological characteristic: no pollution,no pesticide residue,no plant pathogen,coarse ash content,little mixture,pure natural product from china changbai mountain.

physio-chemical characteristic:rich organic matter,humic acid,fulvic acid,ph ,ec ,fiber ,moisture ,porosity is stable,light weight ,flexible,no hardy with good water-retaining , air capacity and slowly-release.

component:

composition	content	main element	content
organic matter(average)	75%	n	2.26%
ph value	5.5-6.5	p2o5	0.25%
humic acid (average)	29%	k	0.3%
fulvic acid(average)	25%	ca) ppm	3300-30000
fiber (average)	60%	(mg) ppm	3000-15000
decomposition (average)	25%	(fe) ppm	1500-3300
ec	0.3abt	(cu) ppm	18-68
cec	150mg/100g	(zn) ppm	21-360
pority (average)	25-60	(mn) ppm	25-600
moisture	20-50	(b) ppm	25-30
coarse ash content	15	(mo) ppm	3

product series:

1. peat moss special for flower
2. peat moss special for lawn
3. peat moss special for amending soil
4. peat moss for golf-course nursery
5. seedling growing media for vegetable,melon and fruit
6. growing media (substrate) for container seedling wood

7. growing media (substrate) for road-base

8. growing media (substrate) for roof -garden

9. nutritious substrate for flower (succulent, foliage, woody, bulb and perennial, orchid and herb)

application:

various kinds of flower , seedling wood, vegetable, melon, fruit, tobacco, cotton, chinese herb , chinese

medicine, lawn (turf), green land and bad quality soil amendment, it can provide best growth environment and

cultured growing media.

grade:

1. special grade for export

2. special grade for domestic market 3) first grade for domestic market

product process:

1. harvest: mechanical harvest by cutting way and absorbing way. by cutting way , put the surface of peat into block then form piece , place them together (harvest) after cutting. by absorbing way, make the peat broken into pieces , then harvest directly them by vacuum way .

1. classification: dig the peat moss in early spring and winter, classified by different peat moss layer , different type, different use, different fiber specification, collect and heap them separately, then disinfect on the surface and carry on mixture treatment to ensure the quality of peat moss

2. mix: according to different plant species and characteristic, we selected suitable peat moss then mix nutritious element . wet agent and other growing medium.

3. test: strict quality system and control on the spot to ensure each batch product quality, each batch sample to be kept

on file and sealed one year .our peat moss quality test center will test soil free of charge then guide you to use suitable peat moss during plant growth period.

4.packing:packed in plastic bag

1) compressed pack:120l ; 250l ; 300l ; 320l per bag ;

2) uncompressed packing: 50l ; 60l per bag

6 . transportation:

1)by lorry:3000bags/lorry (50l/bag,first grade for domestic market) ; 2500bags/lorry (60l , /bag) ; 500bags/lorry (300l/bag,compressed pack)

2) by container , 2000 bags/40ft container (50l/bag) ; 1666 bags/40ft container (60l/bag) ; 333 bags/lorry (300l/bag,compressed pack, ;

application example:

hong kong disney land,kumming world horticulture fair,shenyang welihe gym,guangzhou chenchun flower world

main hall garden,weisheng seedling co.,taiwan nongyou seedling co; shenhe seedling co.,shenyang world

fair,beijing wangliu golf course jingshen high-speed road sloppy – nursery,jinghu high-speed sloppy-

nursery ,xinjiang cotton vegetable melon fruit seedling,shangdong shouguang vegetable seedling,nemeng

desert planting forest ,tianjin binhai xinqu salty alkaline soil amendment.sunnow brand peat moss is

famous in china for its best quality and honour, it is used widely in 26 province and welcomed by user.

the products are exported to japan,korea,malaysia,singapore, and europeu,america etc.

after-sales service:after-sales service system is complte,we will test soil free of charge then guide

you to use suitable peat moss during plant growth period according to different clients ' demand,in the

same time,we provide technical information to cleints home and abroad.
