产品详情

3M 62 PTFE Film Tape is a high-temperature tape with a flame-retardant silicone adhesive. This tape's consistent performance in high-temperature applications makes it an excellent choice for use on high temperature coils, capacitors and wire harnesses, and is printable. Rated for use up to 356(deg)F (180(deg)C). UL 510 flame retardant.

3M PTFE Film Electrical Tape 62 is Translucent, printable, bondable backside on liner with a Silicone Adhesive, 2 mil film, 355mm x 33m. It has a consistent performance in high-temperature applications , for a higher adhesion to its own backing. It provides also a higher adhesion of resins and varnishes to the backing.

Features of 62 PTFE:

PTFE Film resistant to chemicals, have high arc resistance.

Great for non stick applications

High temperature use
