soybean wax merit:1.100% soybean wax composition, including the paraffin wax ingredient, does not conform to the european and american laws and regulations completely.2.the low in price, the goods supply is prompt.3.the manufacture cup wax does not escape the cup, the pigment dispersion is even, not high-flying firecracker attached to a reed stalk;the manufacture"s column wax cooling rate is quick, the easy drawing of patterns, not to crack, the pigment dispersion is even, not high-flying firecracker attached to a reed stalk.4.compared to paraffin wax combustion time long 30-50%.5.non-toxic environmental protection. when combustion the product carcinogen, the reject might not the biodegradation.6.the temperature of fusion is low, saves the heat source, favors the operators safety in production.7.the east china sea baiyu sign soybean wax and us import soybean wax phase ratio:1.the product quality and the performance are similar, east china sea"s baiyu soybean wax slightly gets the advantage in the luster and the tiny technical parameter.2.product price, east china sea baiyu sign soybean wax price compared to american identical model product price low 3000-4000 yuan (renminbi).3.delivery time, import soybean wax date of delivery generally about 55-65 days, east china sea"s baiyu soybean wax delivery time generally about 15-20 days, if has stock, receives the funds to be possible to deliver goods, in the time saves about 40 days.4.in the post-sale service aspect, the candle factory has on any technical and the product question has the response in one day, very quick might help the candle factory to find the solution.5.east china sea"s baiyu soybean wax has the cooperation and the relation with the domestic well-known candle enterprise, the products outlet us, canada, the european union extremely japan, is in the present domestic soybean wax market one of quantity of delivery biggest enterprises.6.at present the soybean wax export aspect, the country has the tax reimbursement for export 11% preferential benefits, moreover the present whole world petroleum price rises unceasingly the situation, the paraffin wax cost rises unceasingly, therefore is obvious

regarding the massive export upscale end product soybean wax candle's factory cost advantage.
