

Laserwire精密激光导线剥线系统

产品名称	Laserwire精密激光导线剥线系统
公司名称	上海杰龙电子工程有限公司
价格	.00/个
规格参数	
公司地址	上海市闵行颛桥
联系电话	021-51097866 13310108261

产品详情

Laser Wire Solutions ' new Mercury-4 laser wire strippers are an excellent multipurpose tool for any precision wire stripping requirements. Designed with cost in mind for general purpose stripping of performance electronics. Mercury-4系列激光剥线机是一款性能优越的多用途激光剥线系统，可以满足任何精密激光无损剥线需求。

The Mercury 4 system offers a breakthrough in terms of both price and stripping performance. A key factor in the design has been to minimize the machine footprint on the Operator ' s bench and set the wire load height at an ergonomic level when used from a sitting position. Mercury-4系统在价格和剥头性能实现了全新的突破。设计的一个关键因素是减小了机器的尺寸，可以放置在操作台上，使操作高度符合人体工程学，操作时可以实现坐姿。Technology技术原理Unlike conventional laser wire strippers - the Mercury-4 utilizes high speed double sided galvoscaner technology. This allows high accuracy positioning of the laser beam at unprecedented speeds . The laser can be simply configured for endstrips, window cuts, slits or even area vaporization不同于传统的激光剥线机， Mercury 4采用了高速双面镜头扫描技术。这使得系统能够在非常高速下实现激光束高精度定位。通过简单设置，可以实现端头剥线、开窗、纵切甚至区域蒸发烧蚀等应用。 Available in 2 orientations and 3 power versions (20 watt , 30 Watt , 40Watt)有2种机型和3种功率20瓦、 30瓦、 40瓦可供选择 Vertical : for the smallest laser wire stripper footprint on the market垂直放置型：目前市面上zui小尺寸的激光剥线机 Horizontal: Small foot-print with minimum maintenance-optics arranged at right angles to wires水平放置型：小尺寸、 维护少、 光学器件安装在导线剥头适合角度位置
