

MOLYBDENUM DISULPHIDE COATING

产品名称	MOLYBDENUM DISULPHIDE COATING
公司名称	上海恩莱保贸易有限公司
价格	.00/个
规格参数	
公司地址	上海市松江区金高路2388号813室
联系电话	86-021-20228098 13391171050

产品详情

Molybdenum Disulfide Coatings (MoS₂ coatings) are also referred to as Moly Coatings. Moly coating is formed by the combination of high performance resins with molybdenum disulfide lubricant. MoS₂ coatings are typically thermally cured and then thoroughly connected to the coated part 's base metal.

MoS₂ Coating Applications

Moly coating are generally used in applications that require a lubricant which is highly durable and does not react much when in use. These coatings find their usage in industries where load carrying potential, coefficient of friction (COF) and operating pressure are the key concerns.
