产品详情

MultiTherm 550 is an alkylated aromatic heat transfer fluid designed for use in closed loop systems from -15°F / -26°C to 550°F / 288°C. With outstanding thermal and oxidative stability, MultiTherm 550 provides superior fluid properties that will withstand multiple cycle heating as well as cooling conditions.

MultiTherm 550 is formulated with a maximum film temperature of 600°F / 316°C and a maximum bulk operating temperature of 550°F/288°C.

Applications MultiTherm 550 is used in wide variety of industries that looking for a reliable, cost effective, high performance heat transfer fluid that can operate at 550°F / 288°C on a continuous basis.

Common applications:

Natural Gas Processing

Liquid Terminal Heating

Asphalt Plants

Biodiesel Production

Plastic Processing

Chemical Processing
