CBME World Debut 2020

Products are the key to the core competitiveness of the enterprise. With the demand for the high-quality product in the Chinese market is soaring, product upgrading and innovation is the only way that enterprises must take to satisfy the demands of the consumer market. As the world's largest resource platform of children, baby and maternity, CBME will continue to hold the world debut activities and set up the World Debut Zone at the show. The collection of global new products of ready-to-launch is ongoing. The selected high-quality products will be displayed at CBME 2020 for its world debut, aiming to build brand influence and visibility as well as promote the iteration and innovation upgrading of the children-baby-maternity product.

What can you find at CBME World Debut 2020

- * A collection of global new baby & maternity products
- * The latest trend in child, baby & maternity industry
- * The state-of-the-art technology and innovation
- * The most popular new designed baby products
