

卧式沸腾中药成品干燥器

产品名称	卧式沸腾中药成品干燥器
公司名称	常州力马干燥科技有限公司
价格	.00/个
规格参数	
公司地址	天宁区郑陆镇花园村委周塘桥村116号（注册地址）
联系电话	0519-88968880 18136711288

产品详情

卧式沸腾中药成品干燥器，属于中药加工机械领域；解决的技术问题是提供一种卧式沸腾中药成品干燥器；采取的技术方案是：一种卧式沸腾中药成品干燥器，包括罐状舱体，进料口设置在所述罐状舱体侧表面上端，出料口设置在所述罐状舱体侧表面下端，开口设置在所述出料口侧表面，沸腾床操作台设置在所述罐状舱体内，进风口设置在所述罐状舱体侧表面下端，一端伸入罐状舱体内的通气软管设置在所述进风口内，通气软管上位于罐状舱体外侧的一端与电加热器相连，所述电加热器通过连接管与鼓风机相连，空气过滤器设置在所述连接管上，所述罐状舱体上表面与旋风分离器相连；卧式沸腾中药成品干燥器适用于医药、化工、食品的干燥作业领域。

The utility model relates to a horizontal boiling traditional chinese medicine finished product desicator belongs to traditional chinese medicine processing machinery field, the problem of the technique is solved provide a horizontal boiling traditional chinese medicine finished product desicator, the technical scheme who takes is: a horizontal boiling traditional chinese medicine finished product desicator, personally experiences sth. Part of the body including a jar form cabin, and the feed inlet setting is in jar form cabin side surface upper end, the discharge gate setting is in jar form cabin side surface lower extreme, the opening setting is in the discharge gate side surface, the

ebullated bed operation panel sets up jar form cabin is internal, and the air intake setting is in jar form cabin side surface lower extreme, one end stretch into jar form internal hose setting that ventilates in cabin and are in in the air intake, it links to each other with electric heater to lie in jar one end of the external side in form cabin on the air hose, electric heater passes through the connecting pipe and links to each other with the air -blower, and air cleaner sets up on the connecting pipe, jar form cabin body upper surface links to each other with cyclone, the utility model is suitable for a drying process field of medicine, chemical industry, food.
