Vitafoods Europe brings together the whole industry and is central to marketing plans for businesses across the industry. You simply can't find the same concentration of quality prospects and customers at other events. Our focus at Vitafoods Europe was to bring our clean-label solution, fruit-coloured capsules, to market, as well as demonstrate the science and innovation behind UC-II. Once again, it's been a very successful show for us

It's a wrap! During the event, we welcomed the industry back to Palexpo, Geneva for the first time since 2019. Thousands of visitors came through the doors from near and far to reconnect with the industry, share knowledge and discover the latest products and ingredients to hit the nutraceutical market. Thank you to everyone who attended this year's in person event, our exhibitors, sponsors and speakers. A special mention goes to our Tasting Centre award winners:
