

俄罗斯通讯设备FAC认证-FAC Certificate or FAC Declaration

产品名称	俄罗斯通讯设备FAC认证-FAC Certificate or FAC Declaration
公司名称	沃泰认证服务（苏州）有限公司
价格	.00/个
规格参数	
公司地址	中国（江苏）自由贸易试验区苏州片区苏惠路88号环球财富广场1幢803室（注册地址）
联系电话	0512-63369271 18015477703

产品详情

俄罗斯通信设备FAC认证合格评定是国家监督的强制性程序之一。可以通过联邦通信局(FAC)合格证书或FAC符合性声明，来证明该产品符合通讯技术要求。只有在获得通讯设备FAC证书之后，通信设备才能投放到俄罗斯联邦市场。FAC证书的有效期通常为1到3年。但是FAC符合性声明的有效性不受限制无限期。The conformity assessment of communications equipment is a compulsory procedure of state supervision. The compliance with technical requirements can be proved either with the Federal Communications Agency(FAC)Certificate or FAC Declaration. Only after that communications equipment can be placed on the market of the Russian Federation. A FAC certificate is generally valid between 1 and 3 years. The validity of a FAC declaration, however, is unlimited.

俄罗斯对于在公共交换电话网(PSTN)中使用的通信设备必须FAC认证证明它不会危及PSTN的安全性、完整性和操作稳定性。

Legal Framework适用的FAC法律框架

The basis for the conformity assessment of communications equipment builds the legislation of the Russian Federation:

俄罗斯联邦相关通信设备合格评定的立法：

Federal Law of the Russian Federation 126-FZ of July,7 2003"About telecommunication"

俄罗斯联邦2003年7月7日第126-FZ号联邦法“关于电信”

Decree of the Government 532 of June,25 2009"List of communications equipment subject to compulsory certification"

2009年6月25日第532号政府法令“受强制认证的通信设备清单”

'通信设备合格评定组织实施条例'2005年4月13日第214号

Application area 适用领域

As communication equipment count such plants and devices, that are used for detection, transmission and output of informations. 用于信息检测、传输和输出的通信设备。

Decree of the Government 532 sets out what equipment is subject to compulsory FAC certification:

俄罗斯政府 532号法令规定需要进行强制性FAC认证的通信设备清单：

equipment for switching systems (equipment for communication centers, telephone exchanges etc) 交换系统设备 (通信中心、电话交换机等设备)

equipment for digital data transmission systems 数字数据传输系统设备

equipment with the functions of control and monitoring 具有控制和监测功能的设备

equipment used to record the volume of communication services provided 用于记录所提供通信服务量的设备

radio-electronic means of communication 无线电电子通讯设备

communications equipment, including software used for operational search activities 通信设备，包括用于业务搜索活动的软件

terminal equipment that could lead to disruption functioning of a public communications network 可能导致公共通信网络功能中断的终端设备

If communications equipment is not listed in Decree of the Government 532 but it is a terminal equipment, such equipment must be FAC declared, for example:

如果通信设备未在政府 532号法令中列出，但它是终端设备，则此类设备也必须进行FAC声明，例如：

DECT corded and cordless phones/DECT有绳和无绳电话

Cell phones GSM, WCDMA, HSDPA, CDMA/GSM, WCDMA, HSDPA, CDMA 电话手机

Wired and wireless modems and computer cards (modules) for GSM, GPRS, EDGE, WCDMA, HSDPA/用于GSM、GPRS、EDGE、WCDMA、HSDPA的有线和无线调制解调器和计算机卡 (模块)

BlueTooth and Wi-Fi Wireless Computer Network Modules standard 802.15 802.11a/b/g/n./蓝牙和Wi-Fi无线计算机网络模块标准802.15 802.11a/b/g/n.

Telematic Data server, which support the following Internet services and working over HTTP, HTTPS, POP, SMTP, DNS, FTP. 远程信息处理数据服务器，支持以下Internet服务并通过HTTP、HTTPS、POP、SMTP、DNS、FTP工作的设备

If communications equipment cannot be connected to the public switched telephone network it does not need any

conformity approval from the Federal Communications Agency. Anyway, the equipment can be subject to technical regulation of the Eurasian Economic Union. If the equipment could be used for the encryption of data it is subject to the notification by the Federal Security Service of the Russian Federation (FSB).

注意：如果该通信设备无法连接到公共交换电话网络，则不需要联邦通信局FAC的任何符合性批准认证。但是无论如何，该设备需要遵守欧亚经济联盟的技术法规。如果该设备可用于数据加密，则必须强制性遵守俄罗斯联邦安全局(FSB)的通知。

FAC Certification or Declaration process

FAC认证/符合性声明流程

Step: filing of application at the notified certification body 向指定认证机构提交申请

Step: the notified certification body checks the documentation 指定认证机构检查文件

Step: product classification and sampling 产品分类和抽样

Step: testing 测试

Step: manufacturing audit (if set out in the technical regulation) 制造商工厂审核（如果在技术法规中有规定）

Step: issuance of a certificate 颁发证书

Step: monitoring of the certified product 对认证产品的监控
