

# OMS 拉伸膜套袋包装机 IS43

产品名称	OMS 拉伸膜套袋包装机 IS43
公司名称	宁士国际包装有限公司
价格	.00/台
规格参数	类型:栈板打包机 品牌:OMS 型号:IS43
公司地址	江苏 南通市港闸区 长和路88号
联系电话	86-51385656565 15851303330

## 产品详情

类型	栈板打包机	品牌	OMS
型号	IS43	功率	15 ( Kw )
重量	1000 ( kg )	外形尺寸	1.8M*3M*2.3M ( mm )
打包带宽度	13~19 ( mm )	最大包装宽度	2000 ( mm )
最小包装宽度	500 ( mm )	最大捆紧力	4000 ( N )
纸蕊尺寸	406 ( mm )	打包能力	80 ( 包/小时 )
适用对象	金属、废纸、其他	包装类型	箱、带、杯、袋、碟、管、罐、盒、瓶、桶、碗、易拉罐、利乐包、泡沫、软管、其他
动力类型	全自动	自动化程度	全自动

### product description

the automatic hooding machine model stretch is43 packs palletized products with tubular stretching film. the rear part of the machine prepares the bags, while the front part carries out the actual hooding.a mechanical taking system brings the bag vertically to the top of the arch; the film is first crumpled up on four devices, and it is then stretched and adapted to the load. the machine is delivered enbloc and it can be installed on any type of conveying system.the is43 can come with one, two or three coils with tubular film of the same and/or different formats. in the version with a double or triple coil, the film guide group is installed on the translating carriage to automatically put in line the most appropriate coil for the product to be packed thus saving on film.all functions are managed by a plc which controls all automatic and manual operations. an operator is needed only to change the film coil.

### technical specifications

• type of film used:	elastic polyethylene
• film thickness:	65/200 micron
• max coil diameter:	700 mm
• max coil weight:	300 kg
• pressure of compressed air used:	5.5 ÷ 7 bar
• voltage, three phase+neutral:	400 v+n+pe (+/-10%)-50 hz
• max installed power (which may vary depending on the machine model):	from 6 to 12 kw
• field of operating environmental temperature:	+5 ° c/+40 ° c
