

Halocarbon MSXT Mechanical Seal Life-Extension Fluid i

产品名称	Halocarbon MSXT Mechanical Seal Life-Extension Fluid i
公司名称	上海恩莱保贸易有限公司
价格	.00/个
规格参数	
公司地址	上海市松江区金高路2388号813室
联系电话	86-021-20228098 13391171050

产品详情

Halocarbon Mechanical Seal Life-Extension Fluid is recommended for use to temporarily extend the service life of leaking mechanical seals. Halocarbon MSXT provides plant operators with a short-term solution to complete critical processes or operations in a safe and reliable manner by minimizing seal leakage in between routine or scheduled maintenance shutdowns.

翻译

械密封寿命延长液来临时延长泄漏机械密封的使用寿命。 Halocarbon MSXT 为工厂操作员提供了一种短期解决方案，通过在例行或计划的维护停机之间大限度地减少密封泄漏，以安全可靠的方式完成关键流程或操作。

Halocarbon MSXT is specifically formulated to high viscosity and is designed for use with other Halocarbon Mechanical Seal Barrier Fluids. Halocarbon MSXT can be added directly to a barrier fluid reservoir to retard the rate of environment-side or process-side leakage of barrier or process fluids.*

Halocarbon MSXT is available either with or without a corrosion inhibitor.

*In cases where seal failure results in large openings to the process, the system will necessitate a shutdown to ensure safe operation.

Key Performance Characteristics

Safe to handle, nontoxic

Clean, no sludge-formation

Nonflammable (no flash or fire point)

Low temperature fluidity

High thermal stability

Compatible with most metals, plastics, and elastomers

Excellent compatibility with Lewis Acids

Good heat transfer properties

Excellent sealing and lubricating properties
