I am sorry I don't understand the question very well. I have taken the MOS excel 2007 exam passed in my second attempt. In the exam you will be provided a real office 2007 so what ever you can do you should be able to do so. I only got 50 minutes to finish

17 exam question so I didn't get a chance to explore all. Not all question are same difficulty. Some questions are easy you can answer quickly while others are difficult and some are some are in between. Do not divide the time equally. I made this mistake

in my first attempt. If you have difficulty in understanding the question mark and move forward there may be easy questions left unanswered. You can come back to the question that you marked. I hope this explains.
