产品详情

折叠式款纸制品激光器镂空雕花设备介绍

非常系列产品激光打标机选用激光器热电效应，对各类非金属材料开展无容栅灼烧离子注入，专为大幅度幅面原材料高精密手工雕刻镂空雕花加工工艺而设计方案，激光打标速率更快，手工雕刻精密度更高一些、细致度更显著；机器设备易实际操作，特性平稳。

折叠式款纸制品激光器镂空雕花机适用原材料

该设施适用生日卡、年画、结婚请帖、月饼盒、糖盒、剪纸画、3D纸雕灯、请贴、生日蛋糕围边、席位卡杯卡、绘画模板、文创产品艺术品等多种多样纸质材料及其PET原材料的手工雕刻、激光切割、镂空雕花制做。

Equipment introduction

Super series laser marking machine uses laser heat effect to carry on contactless cauterization etching to all kinds of non-metals, specially designed for high precision engraving hollowed-out process of large format material, marking speed is faster, engraving precision is higher, fine fineness is more obvious; equipment is easy to operate, performance is stable.

Applicable materials

The equipment is suitable for card, New Year painting, wedding, moon cake box, sugar box, paper-cut ,3 D paper carving lamp, invitation card, cake rim, seat card cup card, painting template, Wenchuang handicraft and other paper materials as well as PET materials carving, cutting, hollowed-out production.
