

保温防火板 膨胀蛭石 保温防火材料

产品名称	保温防火板 膨胀蛭石 保温防火材料
公司名称	河北沃美克蛭石有限公司
价格	150.00/个
规格参数	材质:膨胀蛭石 产品类别:保温防火材料 产品种类:保温板
公司地址	lvxiangning@163.com
联系电话	13503200124 15303217720

产品详情

材质	膨胀蛭石	产品类别	保温防火材料
产品种类	保温板	导热系数 (常温)	0.03
等级	一级	低温弯折	8.0
断裂伸长率	1.5%	规格	2100x900
抗弯强度	1.0~8.0	抗压强度	1.5~8.0
品牌	沃美克	使用温度	800~1100c
芯材	蛭石	形态	颗粒
形状	长方形	应用范围	建材, 壁炉, 防火门, 电暖器

environmental protection

our fireproof boards are made of natural inorganic material. it does not contain asbestos and methyl alcohol. the environmental protection effect is in accordance with the national standard.

- natural, environmental-protection orientated, no poison and no radioactivity
- fireproof, damp-proof, anti corrosion
- light, good insulation for heat & sound, good heat preservation performance

- available to cut, saw, good plasticity
- fire rating from 30 min to 120min and longer.

product use

the fireproof door core board is mainly used to provide fireproof materials for steel and wooden fireproof doors. it is also widely used in public places with high fireproof & sound insulation demands, such as office buildings, commercial shopping center, floor compartments, schools, laboratories, hospitals, train stations, airports, theaters, ballrooms, entertainment centers, factories, activity rooms, etc.

product specification:

max. service temperature:1100c

2100x900x29/38mm and so on.

could be adjusted by customers request.
