

常州废气处理 废气净化工程 常州废气处理,催化燃烧,粉尘处理

产品名称	常州废气处理 废气净化工程 常州废气处理,催化燃烧,粉尘处理
公司名称	江苏创清环保工程有限公司
价格	5000.00/套
规格参数	品牌：:创清 过滤风速:0.6~1.5米/秒 产地:江苏
公司地址	武进区雪堰镇凤凰村（注册地址）
联系电话	18651230803

产品详情

公司简介

江苏创清环保工程有限公司坐落于江苏常州，是一家从事工业废气净化处理技术研发、系统设计、设备生产、设备安装及运营维护的科研型、技术型企业。

本公司依托国内的多家高校和科研机构，凭借在废气净化领域的水平和成熟的技术，现已成为催化燃烧、除尘设备、废气处理设备、防腐防腐设备、废气净化设备、污水处理成套设备等各类设备的环保设备生产商。

公司拥有的技术团队，多元化服务营销团队，工程施工团队，研发团队，产品生产基地，为客户提供一站式服务。近年来，针对新的环保法逐步出台，排污标准的逐步提高，公司不断加大科技创新力度，通过引进吸收国内外先进技术，研制开发，运用了多项具有高水平的环保设备技术。如脉冲除尘器、高效喷淋塔、催化燃烧设备、污水处理设备、酸雾净化、工业吸尘设备、活性炭吸附脱附设备、废气净化塔等一大批先进的环保设备系统。

我们以“品质至上、诚信为本、创新制胜”为经营宗旨，坚持稳健发展及全国行销策略，为客户提供格式优良产品和全方位的服务。创清环保与环保企业共同成长，为发展环保事业共同努力。

Jiangsu Chuangqing Environmental Engineering Co., Ltd., located in Changzhou, Jiangsu Province, is a research-oriented and technology-oriented enterprise specializing in industrial waste gas purification technology research and development, system design, equipment production, equipment installation and operation maintenance.

The company relies on a number of domestic universities and scientific research institutions, with the professional level and mature technology in the field of waste gas purification, now it has become a professional environmental

protection equipment manufacturer of catalytic combustion, dust removal equipment, waste gas treatment equipment, anticorrosion equipment, waste gas purification equipment, waste water treatment equipment and so on.

The company has a first-class technical team, professional service marketing team, Professional Engineering Team, Professional R & D team, high-quality product production base, to provide one-stop service for customers. In recent years, in response to the gradual introduction of the new National Environmental Protection Law and the gradual improvement of the emission standards, the company has continuously increased its efforts in scientific and technological innovation, through the introduction and absorption of advanced domestic and foreign technologies, research and development, using a number of leading-edge environmental protection equipment technology. Such as Pulse Dust Remover, high-efficiency spray tower, catalytic combustion equipment, sewage treatment equipment, acid mist purification, industrial cleaning equipment, activated carbon adsorption and desorption equipment, waste gas purification tower and a large number of advanced environmental protection equipment systems.

We take "the quality is supreme, the good faith is this, the innovation wins" as the management objective, adheres to the steady development and the national marketing strategy, provides the form fine product and the omni-directional service for the customer. Create clear environmental protection and the environmental protection enterprise grow together, develops the environmental protection enterprise to work together.
