无机喷涂纤维 矿岩棉制品

产品名称	无机喷涂纤维 矿岩棉制品
公司名称	上海岩诺新型建材有限公司
价格	3.00/千克
规格参数	分类:矿岩棉制品 品牌:施可达 型号:A-30
公司地址	青浦区华新镇新凤公路588号303室
联系电话	13501973010

产品详情

 分类
 矿岩棉制品
 品牌
 施可达

 型号
 A-30
 粘合材料
 无

粒状棉是由岩棉纤维制成的颗粒状产品,主要用于保温工程不规则空间、保温缝隙等填充,钢结构建筑防火喷涂,以及矿棉吸音天花板制造等。产品性能1.有机物含量: 0.5%2.导热系数: 0.044w/m.k(测试平均温度70 + 70 ± 5 2),测试密度150kg/m3)3.颗粒直径分布:>12.7mm, 60%<6.35mm, 10%产品执行标准q/t0ih 3-2005包装、运输和储存在运输和储存过程中应注意防潮和避免扔掷。

granulated wool is granular product made from mineral wool fiber. it is used mainly for filling irregular space and apertures in thermal insulation structure, spraying for fire proof of steel structure building and manufacturing soundabsorbing ceiling board.

product properties

1.organic material content: 0.5%

2.thermal conductivity coefficient: 0.044w/m.k(average test temperature 70 ± 52), test density 150kg/m3)

3.pellet diameter distribution: >12.7mm, 60%<6.35mm, 10%

product implementation standardq/t0ih 3-2005

packaging, transportataion and storagegranulated wool for ceiling board manufacture is packed in 250kg compress packing. other products are packed in 15kg compress packing.during transportation and storage, keep product away from moisture and avoid throw.
