

# CTM德国蓄电池CT100-12一体式直流稳压电瓶12v100AH

产品名称	CTM德国蓄电池CT100-12一体式直流稳压电瓶12v100AH
公司名称	狮克电源（山东）有限公司
价格	.00/个
规格参数	品牌:CTM蓄电池 型号:CT100-12 产地:德国
公司地址	北京市昌平区沙顺路88号
联系电话	13240167779 13240167779

## 产品详情

### CTM德国蓄电池CT100-12一体式直流电稳压管蓄电池12v100AH

德CTM的铅酸蓄电池生产制造线包含各种各样的工业生产充电电池。从60时代中后期已经造成消化吸收玻璃垫（AGM）充电电池，2000年后德CTM电池企业与法监察部门协作，扩张了产品线，主要包括深循环系统充电电池。每一个充电电池的制定保证了了的点。

伴随着消费者应用范畴广泛性的提高，大家给予的规格和容积也不断创新。现如今，德CTM充电电池可在绝大多数全国各地每个领域被发觉。例如：大家的AGM充电电池是合理地在严苛运用，如应急照明灯和电信网备份数据应用中，而咱们的深循环系统充电电池是合适的循环系统运用的，如残疾轮椅和太阳能发电站。大家的铅酸蓄电池也出现于运用，可靠性高的数据信息存储备份系统软件，及其电动式护栏充电头。

Scope of application

Telephone exchange; Office automation system;

Electrical equipment, medical equipment and instruments; Radio communication system;

Computer uninterruptible power supply UPS; Emergency lighting EPS;

Transmission substation, switch control and emergency lighting; Portable electrical appliances and mining systems;

Fire control, safety and test report; Traffic and beacon lights;

Power on the standby power supply; DC power supply of power plant and hydropower station;

Fumed silica: imported from Germany, with good dispersion and stable performance;

Electrode plate: radial rib design, paste type active material, good high current discharge performance;

Separator: separator for pvc-sio<sub>2</sub> colloidal battery produced by amersil in Europe, with small internal resistance, high porosity and long service life;

Excessive electrolyte design: high electrolyte carrying capacity, full of electrode plate, partition and shell cavity, good heat dissipation of battery, and not prone to thermal runaway;

Colloid tightly coated electrode group: prevent active substances from falling off;

Colloid battery safety valve, high sensitivity, easy to use;

Battery shell: the tank and cover are thickened and made of impact and vibration resistant ABS material, so there is no danger of liquid leakage, bulge, etc. during transportation and use,.
