user manual

1.product brief introduction:

wmvibration is a magic 360 ° unimpeded music player which designed by the principle of resonant,it makes any hard surface play euphonious musical notes,such as wood,glass,wall,metal surface,etc.you can hear various materials around you,which play different music quality on different sides,and you will enjoy yourself in the freedom of music.it is very small and is used to furnish audio like laptop,iphone,ipod,psp and other protable fixtures.

2.how to use:

.checklist

there are wm vibration speaker,usb cable,usage manual in the box.

.connection of audio and power resoooure

when you use it ,please put it on hard surface upward,and let the pedestal touch the surface tightly.insert the mini usb port into the audio driver,the other two ports of usb cable,one of the 3.5 audio jack is to connect the pc audio in jack ,the other is to connect pc usb jack.

3.function parameter:

input dc voltage:dc5v +/-0.5v

output power:3w

frequency response:80hz-18khz

4.maintenance:

keep away from corrosive liquid or gasses.do not place it in the environment of high temperature and aquosity.cleaning it with soft cloth .do not use intensive and corrosive chemicals to eliminate the filth.

5.kind reminder:

in order to enjoy high quality music,you are advised to expericence in the surface of different materials,generally,those hard and dense materials are more sensitive to alt,such sa glass,metal and marble,ect.the materials are softer and lower density perform better in bourdon,such as wood tables,guitar,ect.

material:sounds perfomance

wood:bass in good,fich and sumptuous mid-sound

metal:strong bass sound

paperboard:the clarity of the sound reduced,and it feels like vinyl disc

glass:clean and transparent sound

hollow wall:good spacious sound performance.
