美国sephora/丝芙兰超好评，近千人打分，得分4.7哦（满分5分）！经常化妆的人，眼妆颜色容易晕开、流进双眼皮褶皱、或者颜色不能真实体现眼影本来的鲜艳色泽，都可以使用本品。

this is your full-coverage insurance policy against all fading, creasing, melting, blurring, oil slicked, and hard-to-blend eyeshadow accidents. our silicone based eyeshadow primer transforms any eyeshadow into a perfectly blendable, color-drenched, intensified version of itself, then locks it down perfectly until you take it off. this soothing formula evens out the skintone on your lids and smoothes lines while securing a barrier between the oils of your skin and your makeup, so no shadow catastrophes will ever happen again.

这是你对抗脱妆、积线、溶解、模糊、浮油及不易晕染等等眼影问题的保险单。我们这款以硅树脂为基础的眼影妆前乳能够使眼影完美晕染，高度显色，持久不掉妆。这款舒缓配方能够平滑眼睑皮肤，在你皮肤的油脂与眼影之间形成一个保护膜，所以眼影灾难再也不会发生了。

还在为眼影积线、眼线、睫毛膏晕染而发愁吗？还在为眼影显色淡，色彩不饱满而郁闷吗？快来试试这款shadow insurance吧，完美的打底效果把你的这些烦恼一扫而光，一整日不补妆不再是空想

(5out of5)love this product!-07.16.09

quick take:blends easily, crease resistant, waterproofmy favorite product from too faced. it's like "the eyeshadow magnet". eyeshadow colors appear more true and stays on longer. superior staying power. rinsing with water and wiping it off won't do, i had to use eye makeup remover to completely remove it. better than uddp due to it's superior packaging. you can just easily squeeze the product out of the tube and can be simply cut open with a pair of scissors, where the udpp's packaging is made of hard-as-a-rock plastic that you need like a saw to cut it open to get the remaining product out. not worth cutting yourself.(5out of5)unbelievable!-07.15.09 quick take:crease resistantall of these years i thought i had no hope for keeping my eyeshadow in place because my eyelids are so oily. i tried this after reading the great reviews and i am amazed that it has taken 30 years for me to find out that i don't have to have oily lids! if you constantly wipe your eyelids because your shadow creases, i urge you to buy this product, it's amazing! my eye makeup lasts all day long and i have to remove it with makeup remover otherwise it would last even longer. i'm not exaggerating, this stuff is awesome!(5out of5)love it-07.15.09 quick take:blends easily, crease resistant, stay putas someone who seems to have makeup constantly rub off or fade away during the day (especially eye makeup) i was very impressed with this cream. i use eye shadow as liner on my top lids and usually have to retouch at least once a day. with the shadow insurance i only apply one time during the day, and my eye makeup stays put even through my workouts.(5out of5)incredible staying power-07.13.09 quick take:crease resistant, stays putthe reviews are true-- this stuff really makes your eye makeup stay put. i no longer find creases in my eye shadow or have my shadow liner color pressed into my crease line; my liner is put all day. this stuff is so amazing that it holds my color through my afternoon swim. i usually forget my eye makeup remover and end up swimming with my makeup-- i'm shocked to finish my workout without looking like gene simmons.(5out of5)excellent-07.10.09 quick take:blends easily, crease resistant, creamy, dries quickly, lightweight, great for lashlinesi ended up trying this primer because sephora was out of urban decay's shadow potion (how they even let that happen i don't even want to know). anyway, the salesclerk recommended shadow insurance. i was a faithful shadow potion user and was very hesitant to try something else. it was only after she said i could return it should i not like it did i decide to buy it. i am extremely happy that i did. while i hold urban decay's primer in very high regards, shadow insurance works even better for me and i honestly didn't think anything was better than urban decay's.it is very creamy, soft and velvety and spreads easily over my lid. i must say that i prefer this tube over urban's potion bottle (i do not like the wand - at all).it also does the job very well. my shadow and liner do not crease, although i did have to find the right combination of primer and eyeliner (it worked for all shadows). it was the same deal with urban decay's, so for those of you who do not like either primers, i suggest changing your brand of eyeliner. i use makeup forever's aqua eyes liner pencils.a quick tip: use a little insurance on your bottom lashline and inner lid and it will help hold your eyeliner in place as well. if you wear contacts (as i do) be a bit careful as it will feel a bit sticky if you get it directly onto your pupil.another quick tip: blend quickly. insurance holds that well!

【使用方法】毛孔隐形妆前乳可以单独使用，获得完美的皮肤感觉。也可以在古铜色或亚光妆前使用。第一次用的时候开口那里可能有油乳分离现象，根据使用经验就是摇晃摇晃再用基本就好了。
