

EDS3346-3-0016-000-F1紧凑式电子压力开关

产品名称	EDS3346-3-0016-000-F1紧凑式电子压力开关
公司名称	福州冠信自动化设备有限公司
价格	.00/个
规格参数	品牌:贺德克 型号:EDS3346-3-00 产地:德国
公司地址	福建省福州市鼓楼区鼓东街道五四路158号环球广场25层15室
联系电话	18650358080 18960974015

产品详情

EDS3346-3-0016-000-F1紧凑式电子压力开关

应用领域

EDS 3100主要应用于液压和以及制冷和空调技术。

特征

带显示屏

显示屏可以分两部分移动飞机。

任何安装位置

可显示测量值

单位：bar、psi或MPa

The EDS 3100 is a compact electronic pressure switch with integrated digital

display for absolute pressure measurement in the low pressure range.

It has a ceramic measuring cell with thick-film strain gauge. The instrument can have one or two switching outputs, and there is the option of a reversible analogue output signal (4 .. 20 mA or 0 .. 10 V).

A special design feature of the EDS 3100 is that the display can be moved in two planes. The device can be installed in almost any position and the display can be turned to the optimum position without the usual additional expense of a mechanical adapter.

The 4-digit display can indicate the pressure in bar, psi or MPa. The user can select the particular measurement unit. When changing to a different measurement unit, the device automatically converts all the switching settings to the new unit of measurement.

The EDS 3100 is also available in a variant with menu navigation in accordance with VDMA.

Setting options: Standard design

All settings offered by the EDS 3100 are grouped in 2 easy-to-navigate menus. In order to prevent unauthorised adjustment of the device, a programming disable can be set.
