

## Petroleum Resin C5 Hydrocarbon Resins

产品名称	Petroleum Resin C5 Hydrocarbon Resins
公司名称	Puyang Tiancheng Chemical Co.,Ltd.
价格	11000.00/mt
规格参数	
公司地址	Wei He Road,Puyang City,Henan Province,China
联系电话	86-393-8910238 86-13721799230

### 产品详情

Our C5 Petroleum Resin (C5 Hydrocarbon Resin) are mainly used for Hot Melt Adhesive, Hot Melt Road Marking Paint, Hot Melt Pressure Sensitive Adhesive, Tackifier Resin, Rubber and Tyre, etc. Our C5 Hydrocarbon Petroleum Resin has fine heat stability and light color. It is good compatible with lots of polymers, and it has fine thickening capacity, its performance is very stable. It is the thickening content of adhesive and contact adhesive. It can be used in building structure and decoration, automobile assembly, tyre, packing, book, sanitation appliances and shoes. As the paint additives, it can speed the drying period, improve performance of paint, including waterproof, acid, alkali resistance and anti-age, hardness and glossiness. As the melting joint route mark paint, it is fast dry, strong adhesion, long life, element resistance. It has fine heat stability. It can be used in medicinal vessel and packing additives, it can improve the performance of material in heat resistance, transparency and softness. It is also applied in rubber, plastic and optical record.
