

AtomLube Ultra Dielectric Grease

产品名称	AtomLube Ultra Dielectric Grease
公司名称	上海恩莱保贸易有限公司
价格	.00/个
规格参数	
公司地址	上海市松江区金高路2388号813室
联系电话	86-021-20228098 13391171050

产品详情

AtomLube Ultra Dielectric Grease

的有机硅基组合物旨在防止电气连接器周围的电压泄漏。与传统的介电润滑脂相比，AtomLube 采用纳米工程添加剂配制而成，可提供更好的防水和环境污染保护，使电气元件长时间保持绝缘腐蚀。它还具有扩展的耐低温和耐高温范围，非常适合在恶劣的操作条件下使用。

AtomLube Ultra Dielectric Grease 专为汽车和卡车应用中的电触点、连接器、开关和传感器而设计。由于它是一种具有优异高温性能的情性润滑脂，因此可用于润滑 O 型圈、垫圈、阀门和密封件以及需要长期稳定润滑而不会变干的表面。这种润滑脂也是橡胶、塑料和陶瓷表面的极佳润滑剂。AtomLube Ultra Dielectric Grease

ULTRA dielectric grease

AtomLube Ultra Dielectric Grease's silicone-based composition is designed to prevent voltage leakage around electrical connectors. Formulated with a nano-engineered additive, AtomLube provides better protection from water and environmental contaminants than a conventional dielectric grease, keeping electrical components insulated from corrosion for long periods of time. It also has an extended range of low- and high-temperature resistance, making it ideal for use in severe operating conditions.

AtomLube Ultra Dielectric Grease is specifically designed for electric contact, connectors, switches and sensors in automotive and trucking applications. Because it's an inert grease with excellent high temperature performance, it can be used for lubricating o-rings, gaskets, valves and seals as well as surfaces that require stable lubrication over long periods without drying out. This grease is also an excellent lubricant on rubber, plastic and ceramic surfaces.
