产品详情

SLIP Plate Hot Oven Chain Lubricant 围绕独特的天然石墨设计，可在极端条件下提供卓越的润滑性。这种水基乳液有效地将石墨带到链销和衬套，润滑整个链条。SLIP Plate Hot Oven Chain Lubricant is designed around unique, natural graphite that offers superior lubricity under extreme conditions. This water-based emulsion effectively carries the graphite to the chain pins and bushings, lubricating the entire chain. The unique binder system utilized creates a very durable coating. The unique particle distribution allows graphite particles to penetrate very tight spaces unlike other competitive products.

All SLIP Plate oven chain lubricants are registered with NSF under H2 category acceptable for non-food contact.
