产品详情

Health Canada Medical Device Establishment License (MDEL)

加拿大医疗器械企业许可证 (MDEL)

Class I medical device and in vitro diagnostic device manufacturers must secure a Medical Device Establishment License (MDEL) if selling directly into Canada and not through a distributor. However, if you sell through distributors in Canada, then your distributor must have an MDEL. Distributors and importers of medical devices and in vitro diagnostic devices, regardless of the device classifications, must secure a MDEL.

NOTE: Manufacturers of Class II, III and IV medical devices and in vitro diagnostic devices do not require an MDEL.

I类医疗器械和体外诊断设备制造商如果不是通过分销商而是直接把设备销售到加拿大必须获得医疗器械企业许可证 (MDEL)。但是，如果是通过分销商销售到加拿大，那么你的分销商必须获得MDEL。医疗器械和体外诊断设备分销商和进口商，不管医疗设备的分类，必须获得MDEL。
