

电动升降平台,升降平台,升降机,高空升降平台

产品名称	电动升降平台,升降平台,升降机,高空升降平台
公司名称	上海德摩机电工程有限公司
价格	.00/个
规格参数	类型:电动升降台 额定载荷:150-10000 (kg)
公司地址	上海市金山区吕巷镇璜溪西街88号2幢4760室 (注册地址)
联系电话	86 21 58919670 13370284296

产品详情

类型	电动升降台	额定载荷	150-10000 (kg)
		电动升降平台	
		electric lift table	

电动升降平台,高空升降机,固定卸货平台等系列产品广泛的应用在生产车间,码头,仓库内,采用进口液压泵站,表面采用钢板折弯,性能稳定,质量至上.

电动升降平台式用于建筑层高兼运送货物的专用液压升降台,产品主要用于车间、仓库各种工作隔层间货物上下运送、立体车库和地下车库层高间汽车举升等。

产品液压系统设置防坠、超载安全保护装置,各楼层和升降台工作面均可设置操作按钮实现多点控制。

产品结构坚固、承载量大,升降平稳,安装维护简单方便,是经济实用的低楼层间替代电梯的理想货物输送设备。

stationary hydrauleic cargo lift is a specialized hydraulic lift platform designed for the cargo transfer between different heights in workshops,warehouses and all kinds of layer structures,as well as the automobile lifting in the multi-level parking lots and underground multi-level parkong lots. the hydraulic system of the product is eauipped with anti-falling,over-load safety protection device,every floor of the building and wvery platform of the lifts mayhave operation buttons to provide multi-point control function .the product is an ideally economic yet effective equipment for cargo transfer between low heights in stead of its strong structure,great loading capacity,steady lifting operation and convenient installation.

型号 model	额定载荷(kg)	最低高度 (mm)	升降行程 (mm)	最大高度 (mm)	台面尺寸 (mm)	起升时
