产品详情

Full automatic tunnel car wash machine: NG-797H Tunnel car wash equipment is automatic car wash system for spraying, scrubbing, waxing, air-drying etc. to external surface of all kinds of car and minibus. It consist of 9 groups of brushes. Detailed Product Description Excellent cleaning effect High pressure system Certification by CE & Bureau Veritas and GB/T19001-2000

Advantage of automatic tunnel car wash machine: 1- Computer controlling system: adopting Germany Siemens, Turck, Japan Fuji components and parts, it has reliable and stable performance. 2- Protection system: The advanced infrared can induct cars types automatically. When car wash machine starts up, you don't need give it orders, car wash machine can induct car type, and then wash it automatically. In order to keep wash safety, you also can operate it by hand in the duration of automatically wash. 3- Specific soft comb: the newest foam comb. Most soft, no graze, uniform stress. Under the optimal conditions, comb can touch the whole cars and catch the best effect. It can wash about 400,000 cars.

Functions: 1- Automatically induct to spray; 2- Wash car by itself; 3- Automatically spray detergent; 4- Automatically wash chassis(optional); 5- Automatically wash wheel; 6- Automatically spray glossy wax; 7- System can automatically check itself;

Features: 1- Complete functions; 2- Reasonable structure; 3- Energy saving, environmental protection; 4- Wash fast; 5- Nice appearance; 6- Durable;

Product parameters: 1- Machine Dimension: 9500mm(L) * 3800(W) * 3100(H) 2- Electricity: AC/220V/380V/3 PHASE/50-60Hz 3- Power: 8kw 4- Water consumption: 80-100 L/set 5- Wash speed: 40-60 set/hour 6- Top/side/wheel brush: 1/4/4 PCS 7- Dry blower: 0 PCS 8- Control system: Remote control, true color touching screen, automatic alarm system 9- Service for cars' dimension:<6000mm(L); <2000mm(W); <2000mm(H)

Working Parameter: Activation Method: Electronic induction Air pressure: 5.5kg/cm² Total Power: 13KW Work Power: 6KW Control items: Automatic/manual
